August 28, 2017

Dear Saville Community Sports Centre User

University of Alberta's Parking Services and the Faculty of Physical Education and Recreation, in partnership with GO Community Centre, are conducting a pilot parking project on South Campus the weekend of September 8 - 10, 2017

We are aware of the concerns regarding parking and traffic issues on South Campus and this pilot project allows us an opportunity to evaluate the traffic and parking options and learn where we can make changes or improvements. As South Campus evolves, so does our planning and infrastructure to support this growth.

Our goals with this pilot are to:

- Improve vehicular and pedestrian safety around the Saville Community Sports Centre
- Improve and maintain effective emergency access points
- Distribute parking across the various available parking lots during events
- Educate SCSC users on available parking and pedestrian access routes from additional lots

Please be aware that traffic patterns and parking options will change, and prepare to allow extra time on these days to park and arrive at your event.

Stay tuned for more details to follow in the next week.

Sincerely,

Saville Community Sports Centre Management Team &
GO Community Centre
